

Comprehensive urban planning strategies for sustainable and inclusive city development

CAPSUS supports informed decision-making in public and private entities. We analyze data to promote policies and projects that foster social well-being, environmental balance, and economic development.

We believe that the synergy between people and technology transforms cities into livable spaces. Therefore, we develop digital tools and participatory processes that optimize urban planning and guarantee efficient solutions.

Urban planning and sustainable building

Sustainable assessments and studies

Dissemination and capacity building

Design and evaluation of public policies

International consulting firm

We implement effective strategies thanks to our experience in diverse global contexts.
